Alexandria Gazette

TUESDAY EVENING, JANUARY 25.

HOW HE PUT THE STOVE WELL UP .- A short time ago an English emigrant family arrived in Chatham, Ont., and being destitute of everything, a few kind hearted people gave them sundry articles to help them to go to housekeeping, and among other things a stove. The donor, however, forgot to send along the necessary pipe. The day being very cold, the first thing which the father of the wandering flock turned his attention to was the making of a fire. With grateful eyes he surveyed the stove (the first he had ever seen), and then glancing at the stove pipe hole in the chimney, which was about two feet from the ceiling, wendered how the smoke could get up to and out of the small hole. His eyes soon rested upon some hooks in the coiling, which a former tenant had used for drying ap-ples thereon, and he naturally came to the conclusion that they were intended to hang the stove upon. There was no time to be lost, and so with the aid of chairs and table, and a good deal of exertion, the able bodied man lifted the stove up so that the stove pipe hole, which happened to be at the aide of the stove, rested nicely in the hole in the chimney while his better half lashed it to the afore menwhile his better half lashed it to the afore-mentioned hooks with ropes, which came around their scanty luggage. After everything was secure the patient housewife hastened to prepare some wood wherewith to make fire, while the perspiring father was designing in his mind some kind of a scaffold whereon his wife could stend to cook the frugal meal. But his ideas were everthrown by the sudden appearance of the depart of the store. the sudden appearance of the donor of the stove bearing the forgotten pipe. An explanation was in order, and, after a hearty laugh, the bewildered Englishman was throughly initiated into the mysteries of the American way of putting up stoves.

MEDICINAL.

Perry, Gs., April 14, 1879. I have watched the use of the medicine now known as "Swift's Syphillitic Specific" over fifty known as "Swift's Syphillitic Specific" over fifty years, and have never heard of a failure to cure when properly taken. I commenced the use of it on my slaves, between 1850 and 1855, as also did a number of my neighbors, and in every case that came within my knowledge it effected a cure. In 1835 Geo. Walker, bought at auction a slave not warranted. After the purchase it was discovered that he had had Suphilis for twelve years. His head was without a hair on it. He treated him with this remedy, and in four weeks he was sound and well, and in a short time had as fine a head of hair as was ever time had as fine a head of hair as was ever owned by a negro. He owned this slave many years, and he never had any return of the disease, nor lost a day's work.

-1881--

The ALEXANDRIA GAZETTE, begun in 1799, is the oldest newspaper in the State, and the only daily published in Northern Virginia. It has survived, with few exceptions, all the public presses in America which saw with it the dawn of the nineteenth century. It lives, too, not in decay, but full of life and vigor, giving all the news, telling the truth without fear, favor or affection, trenching on the privacy of no man's home, but full to the brim with all public information, and giving daily honest

judgments of public men and public measures,

It furnishes the news telegrams of the New York Associated Press and of Reuter's European sgency, being, with but three exceptions, the only paper between Baltimore and Richmond that is thus connected with the great fountsins of the

With the coming year all the long tried and improved methods of making a standard newspaper will be continued, with such additional facilities as past experience justifies the proprietor in believing will add to the capacity of the Gazette to serve its readers. It expects to render faithful service to the city, the state and the country by a candid criticism of men and events in the interest of the people of the Commonwealth of Virginia.

To meet all the demands upon it, the Gazette will be made a WASHINGTON and RICH-MOND NEWSPAPER, as well as an ALEX-ANDRIA JOURNAL. The Richmond and Washington nows of past years has left little to improve, but yet greater effort will be made to insure absolute perfection in these departments,

The city of Alexandria will find as usual its daily history in each evening's issue, and the intelligence of that section of the Commonwealth which nature has bound to Alexandria by the curvature of its mountains or the courses of its rivers as well as that portion linked to us by the iron bands of railways, will be assiduously

The Business and Commercial columns of the Clazette will be filled with the earliest and most exact commercial news, edited with such painstaking care as will render an error, where even slight errors are dangerous, impossible.

The Cattle Markets of all the leading points of the world whose rates affect this market will be quoted, and regular statements of the Baltimore, Georgetown, Washington and Alexandria sales of cattle will appear.

The Flour, Grain and Product movements will be noted daily, and the sales of the Alexandria and neighboring markets given with accuracy and dispatch. The Grocery and other markets will receive constant attention, and the money or stock markets of the country epitomized for its columns, full details being given to all stocks, &c, which find investors in this section of the country.

The advertising columns of the Gazette offer inducements which experience has shown to afford greater returns for a small investment than any other which can be made.
